INDUSTRIAL SERVICES

JAL International provides world class Plant Services as Total Plant Solution provider. We provide tailor-made solutions attuned to the needs of each individual client. The company offers in-depth competence and expertise in handling projects with efficiency.

The spectrum of our industrial services includes:

Plant Maintenance Services

- Lump sum Plant Maintenance Services
- Short Term and Emergency Maintenance Services

Plant Shutdown Services

- Mechanical –Static Equipment
- Mechanical –Rotating Equipment
- Civil and Structural Services
- Electrical Services
- Instrumentation Services
- Analyzer Services

Plant Shutdown Manpower Services – providing Mechanical, Electrical, Instrumentation Manpower

General Construction Services – providing Long term unit rate & lump sum Turnkey Basis to perform Plant Modification, Plant Revamp, Plant Construction Activities of Mechanical, Civil, Electrical and Instrumentation in nature

Fabrication Services

Plant Commissioning and Start up Services

Instrument Calibration Services

ENERGY SERVICE

JAL International formed Energy Services Department primarily to meet the growing market demand of Power Plants and Substations with Specialization on Automation, Control & Protection and associated services. It has also expanded its business to include Power System Automation (PSA) for the Oil & Gas industry, and in the Pipeline and Wellhead monitoring and control systems.

Our business covers the following areas:

Local Manufacturing /Assembly:

JAL integrated manufacturing facility is approved by Saudi Aramco and SEC up to 380KV.

Substation Automation Solutions: SCADA –Supervisory Control and Data Acquisition Systems RTU- Remote Terminals, SOER, DSM, DFR, PSA/RPSA, Pipeline RTU, Distribution Automation System.

Control and Protection Panels : Transformer Protection Panels, Line Protection panels, Busbar Protection Panels, Bus Section Protection Panels, Bus Coupler Protection Panels, Capacitor Bank Protection Panel, Automatic Capacitor Control System (ACCS), Under Voltage/Under Frequency Panels, Remote Tape Changer Control Panels (RTCC), Automatic Voltage Control Panels (AVC), Automatic Bus Transfer Scheme (ABTS), Transformer/ Line Control Panel, Synchro Check Panel (Auto/ Manual), Annunciator Panel with Marshaling Kiosk, Auto Reclosure Panel, Revenue Metering Panel, Communication Converter Panel

Supply:

Distance Protection Relays, Line Differential Protection Relay, Transformer Protection Relay, Busbar Protection Relay, Capacitor Bank Protection Relay, Over Current/ Earth Fault Relay, Over /under voltage relay, Synch protection relay, AVC Relay (Voltage Regulation Relay), Motor Protection Relay, Generator Protection Relay, Auxiliary Relays & Trip Relays

Services:

- Testing & Commissioning Services of S/S up to 380 KV
- Power Plant/Substation Maintenance Services
- Electrical services for Plant shutdown and turnaround
- Engineering & Design Services

ANALYTICAL AND INSTRUMENTATION SERVICES

JAL International understands that Analyzer and Instrumentation is critical for ensuring stable, accurate, reliable and safe Plant process control. JAL International is exclusively representing world class Analyzer and Instrumentation companies and has been supplying products and services to different industries with proven reliability, integrity and efficiency.

Local Manufacturing/Assembly Facility

- Analyzer Shelter Integration Facility
- Gas Detector Assembly Facility

Repair Facility:

- Gas Detector Repair Facility

Exclusive Agents of Analyzer:

- Process Analyzers & Environment Analyzers
- Continuous Emission Monitoring Systems

Exclusive Agents of Instrumentation:

- Level and Flow Measurement
- Pressure and Temperature Switches
- Field Instruments, PLC, and Recorders
- Turbine Flow Measurement and Controls
- Industrial Filters

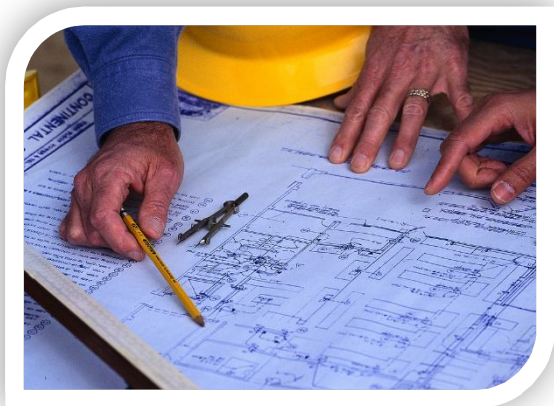

United Electric
Honeywell
Hoffer Flow
Classic Filters

Exclusive Agents of Fire and Health

- Combustible and Toxic Gas Detectors
- Liquid Samplers (waste water, effluent, sewage, sludge and industrial discharges)

Sirco

CLIENT SERVICES

JAL International provides resource services and solutions by providing multi-skilled and highly competent resources to its Clients who are sourced from the different parts of the world and has the capabilities to manage client's complicated requirement with a high degree of professionalism.

JAL International provides competent resources for:

Engineering & Project Management

- Feasibility Study, Basic and Detailed Engineering
- Project, Construction Management and Material Management
- Procurement Services (National & International)

Operation & Maintenance

- Facility Management Services as a Total Responsibility Contractor - Maintenance, Planning, Supervision, Operation on long term basis
- Professional Manpower supply for Plant O & M

Inspection & Reliability

- QA/QC (Mechanical, Electrical, Piping, Static, Refractory, Corrosion, Welding, NDT)
- Plant Reliability (Asset Integrity Management, Risk Based Inspection)

Plant Shutdown

JAL International has a worldwide network of renowned recruitment partners and has a dedicated in house recruitment team managed by experts and experienced personnel. In addition, JAL has established a mega recruitment company to complement to the activities related to resource services.

SUBSTATION CONSTRUCTION SERVICES

JAL Substation Project Management has widened its service offerings within Power & utility sector. Considering the rapid Industrial Growth and increasing Power and Utility demands, JAL International decided to add turnkey Substation Transmission & Distribution Projects within its Service portfolio.

JAL Substation Project Management team currently handles up to 132 KV High Voltage greenfield and brownfield substations projects. JAL International offers complete turnkey Engineering, Procurement and Construction (EPC) and Testing & Commissioning.

Our services include:

- Indoor and outdoor Substations
- Installation & replacement of underground Lines
- Substation Reinforcement Projects
- Industrial electrical projects

JACR is joint venture Company between JAL International & Contract Resources of New Zealand to bring highest level of following specialized services & technical expertise to Saudi Arabian industrial service Market

- Catalyst Handling Services
- Chemical Cleaning Services
- Tank Maintenance and Environment
- Decoking & De-scaling Services
